IS DISCIPLINARY

listinguishing feature.

The number of disciplinary measures The number of disciplinary measures adopted by the board of governors lately, to which was added an expulsion to-day, operates to curtail some kind of activity in the market, but it is doubted whether operations of the kind aimed at make up a large proportion of the dealings from day to day. The moral effect of these measures, however, is to discourage manipulative and fictitious transactions, which are with a view solely to be effective on prices.

re with a view sole; to be entended in prices.

The advance in the Bank of England discount rate to 3 per cent, which was he principal event of the financial day, was of small immediate effect in New fork. The action had been generally expected, and had no unfavorable effect on foreign stock markets. Heavitiess of the metal industrials proved a large on the market. The market losed with one of the intermittent upward swings of prices in progress. Bonds were irregular. Total sales, ar value, \$4,644,000.

United States bonds were unchanged in call.

Total sales to-day 574,200 shares.

AMUSEMENTS.

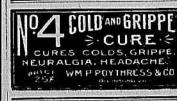

"Buster Brown," presented at the Academy yesterday, was greeted by two fairly large crowds at the matines and night performances, but the production was hardly up to expectations. and high pertonnances, and duction was hardly up to expectations. Buster, played by Master Reed, and Mary Jane, played by Master Harold West, were, of course, the central characters; but Mary Jane, a little tot of a child, was decidedly the better of the two. The stage, however, was too much occupied by vaudeville skills to appeal to the children, and it is probable that most of them enjoy more the original Outcault cartoons.

Some of the songs were good, but, as a whole, the comedy was only a medicore performance. The two major characters did not receive proper support, and Buster himself seemed a trifle too stagey and well-versed for his part.

"The Shepherd King."

"The Shepherd King."

"The Shepherd King,"
Wright Lorimer's big spectacular production, "The Shepherd King," which plays an engagement at the Academy to-night and to-morrow, matinee and night, gives employment directly to over 100 people. This does not take into consideration the employes of the theatre where the attraction is being played. To transport "The Shepherd King" company, its scenery, properties, costumes and live stock, requires a special train of five cars, upwards of \$75.000 having been invested in the equip-000 having been invested in the equip ment, and the pay roll exceeds \$3,000 weekly.
